

Portal Based Game

Gameplay

Will mostly revolve around exploring non-Euclidean spaces that have portals

Want to replicate more of the slide with moving portals or looping corridors

Basic Portal Behavior

Portal Behavior

PLAYER CAN ENTER PORTALS

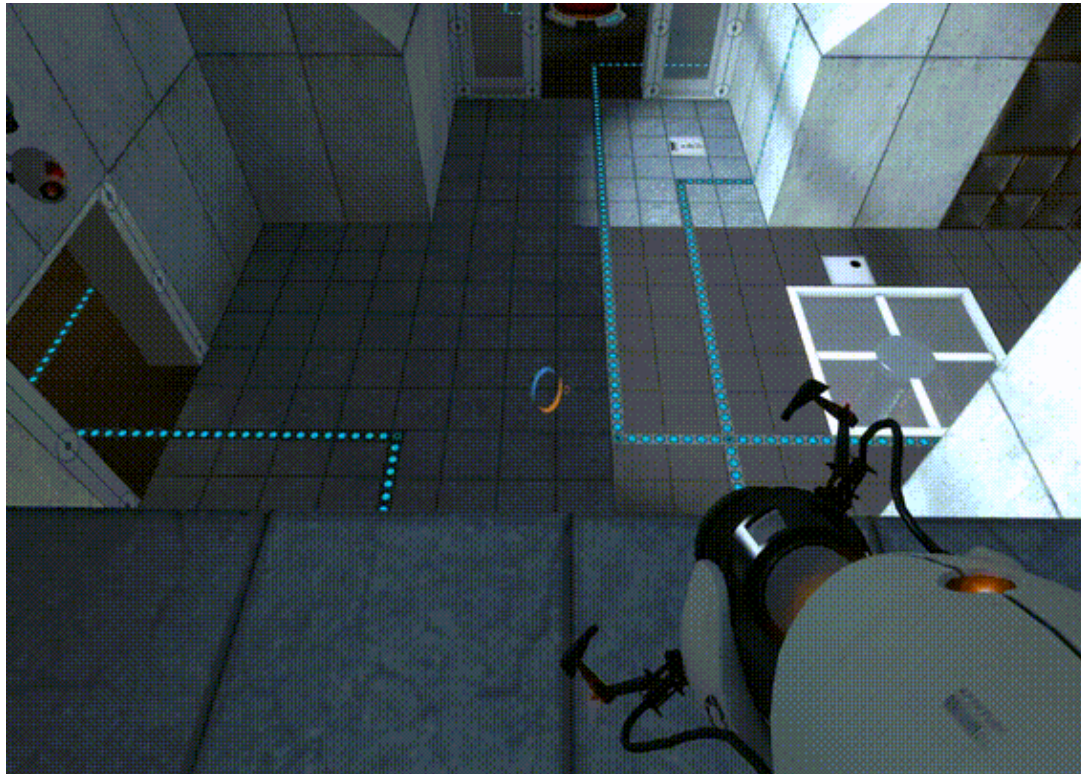

PROJECTILES TRAVEL THROUGH PORTALS

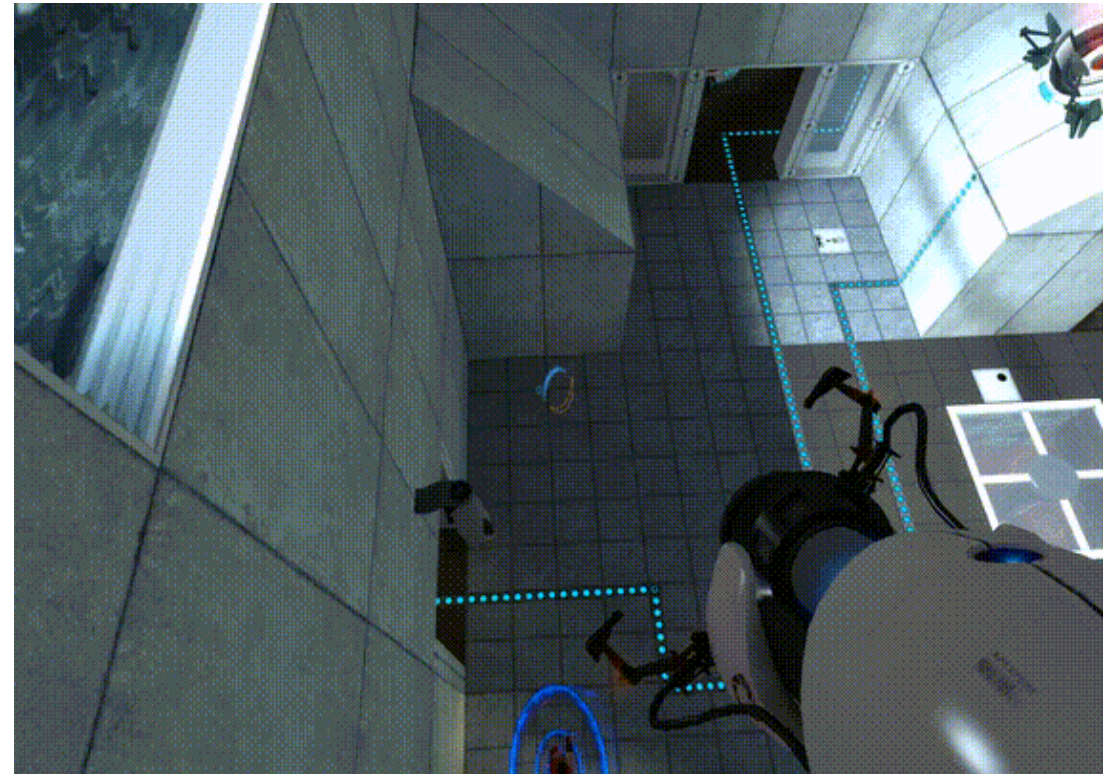

Momentum

MOMENTUM IS CARRIED THROUGH PORTALS

FALLING THROUGH PORTALS

Larger props can enter portals... kind of...

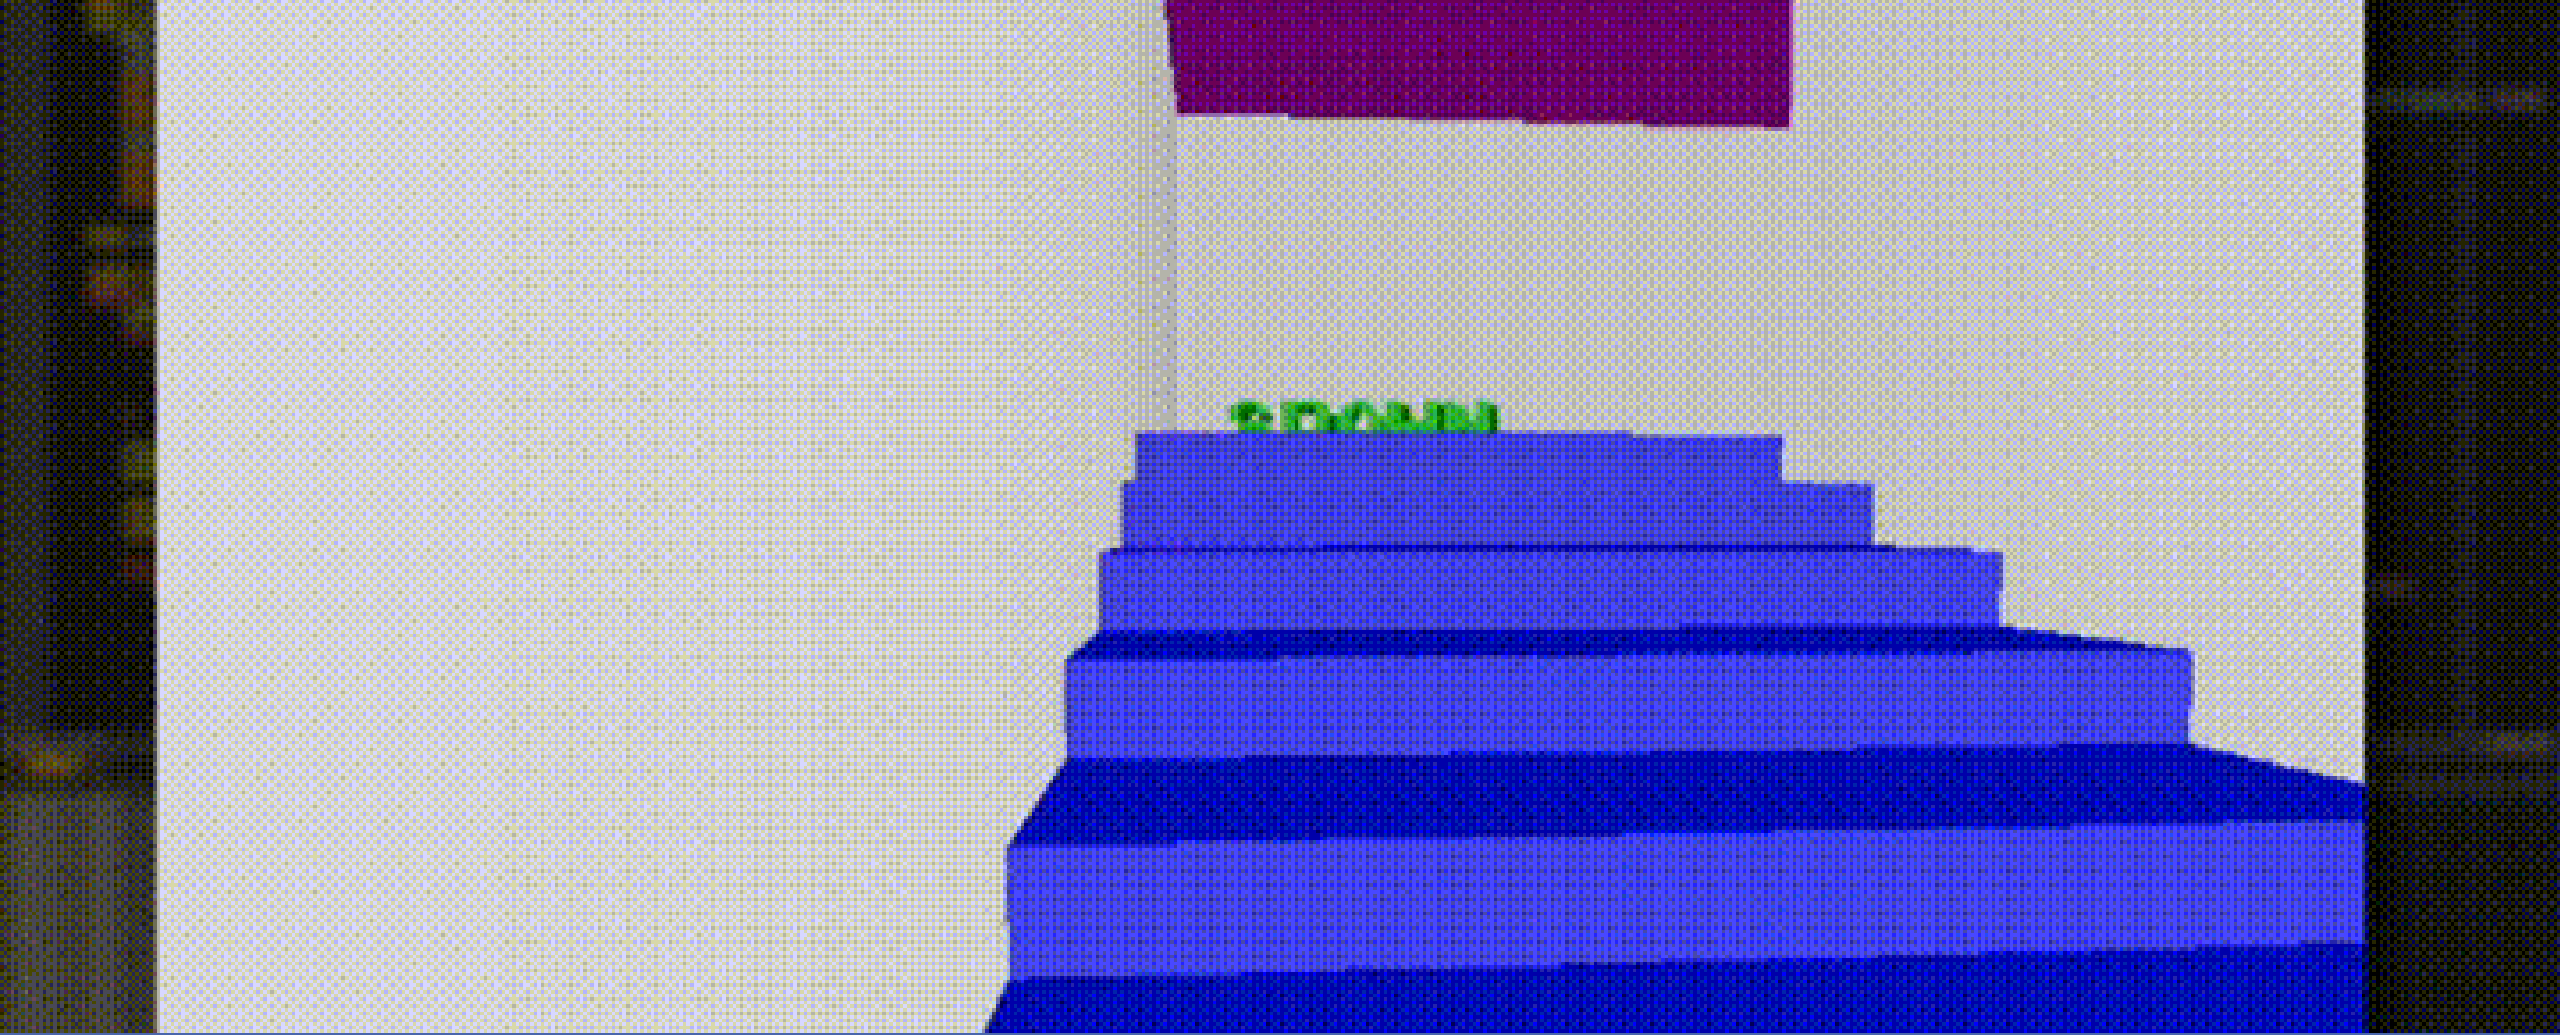

AIRBOAT

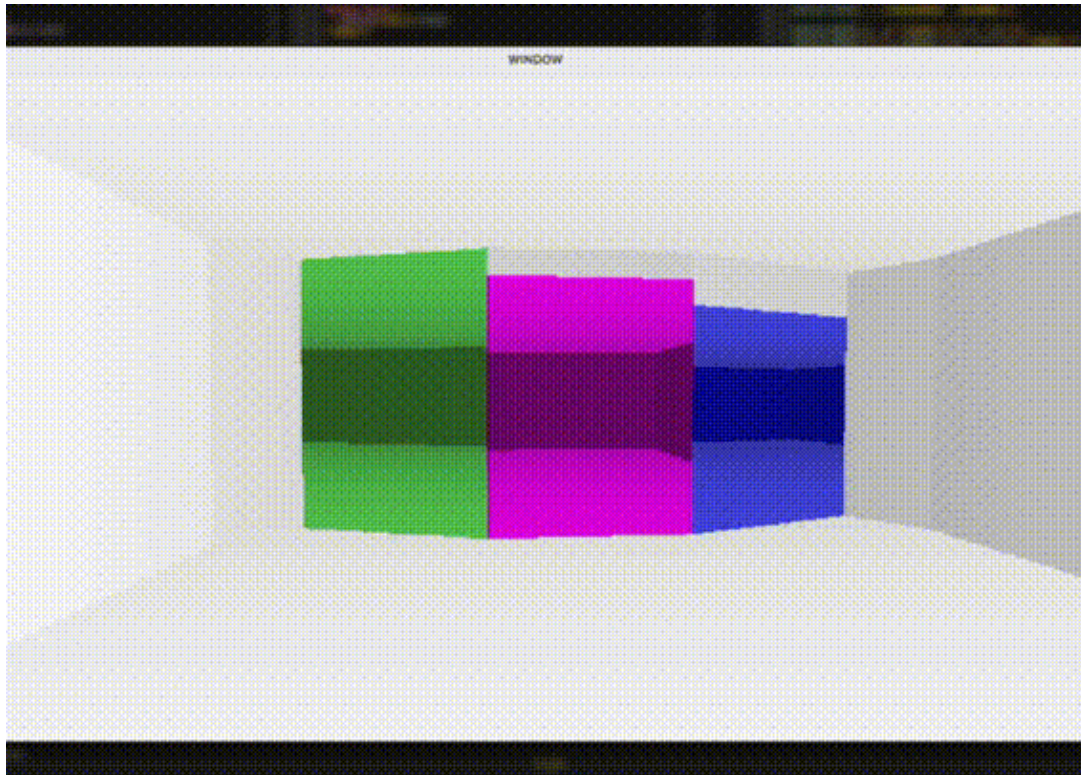

Objects falling between portals

Use of portals to create illusions

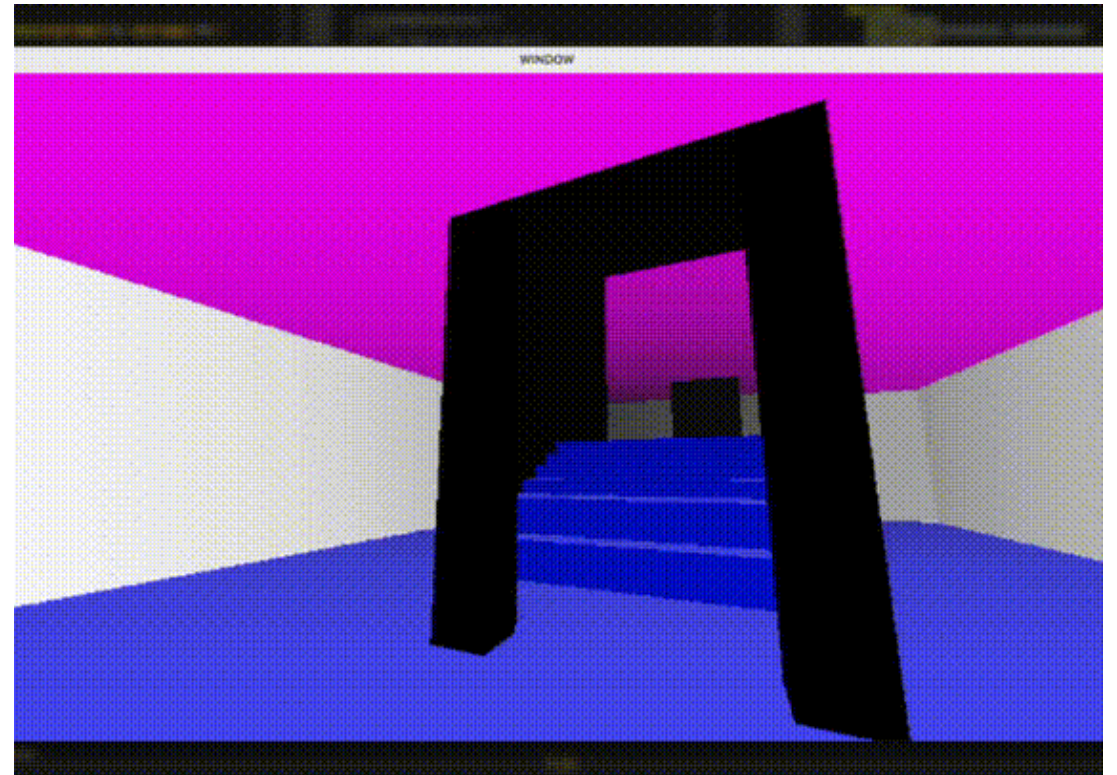

Use of portals to create looping stages

THREE PORTALS NEXT TO EACH OTHER,
LEADING TO DIFFERENT ROOMS

DOORWAY PORTALS LEAD BACK INTO THE
ROOM

Door Illusion

Moving Portals

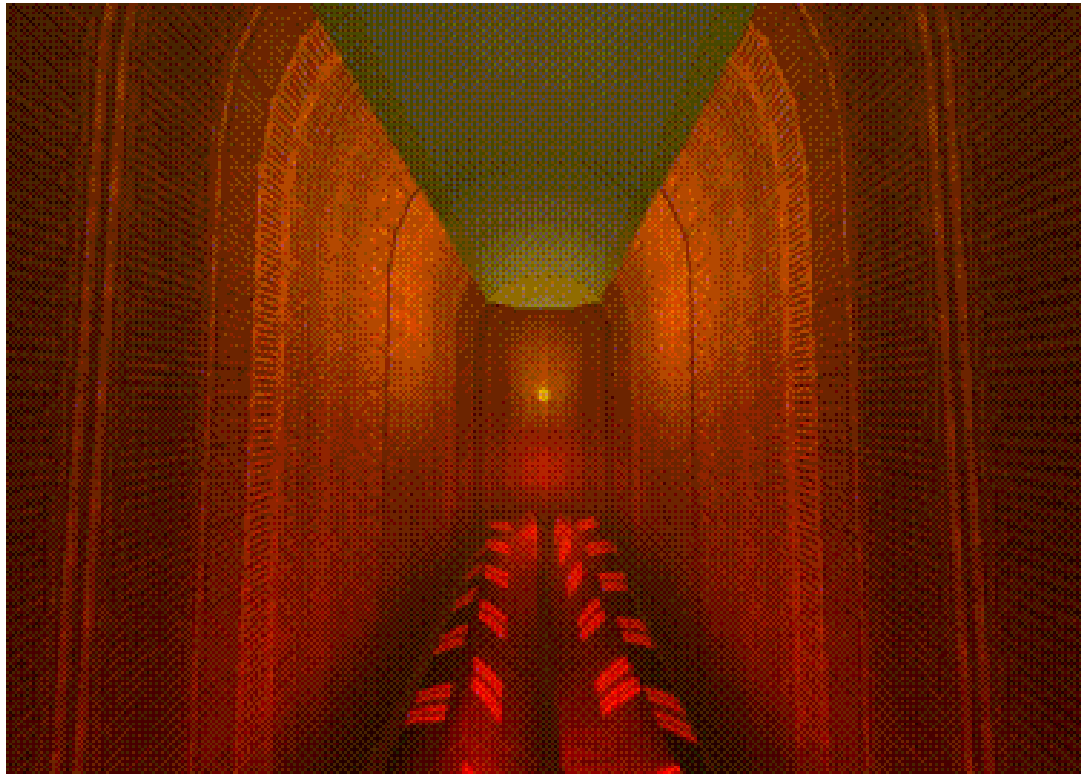

Moving Portals

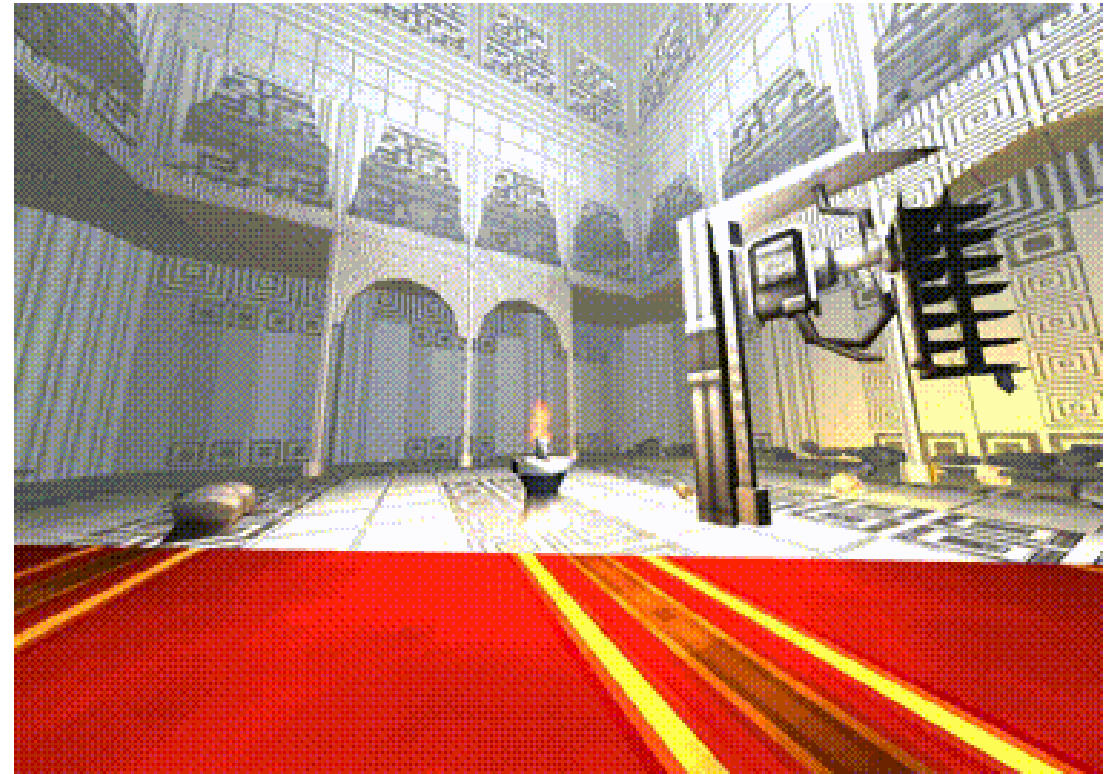

Using moving portals to change the properties of a room

2 Rooms, 1 Playable Room

HORIZONTAL OSCILLATING PORTAL

SPLIT VERTICAL PORTAL

Switching Orientations

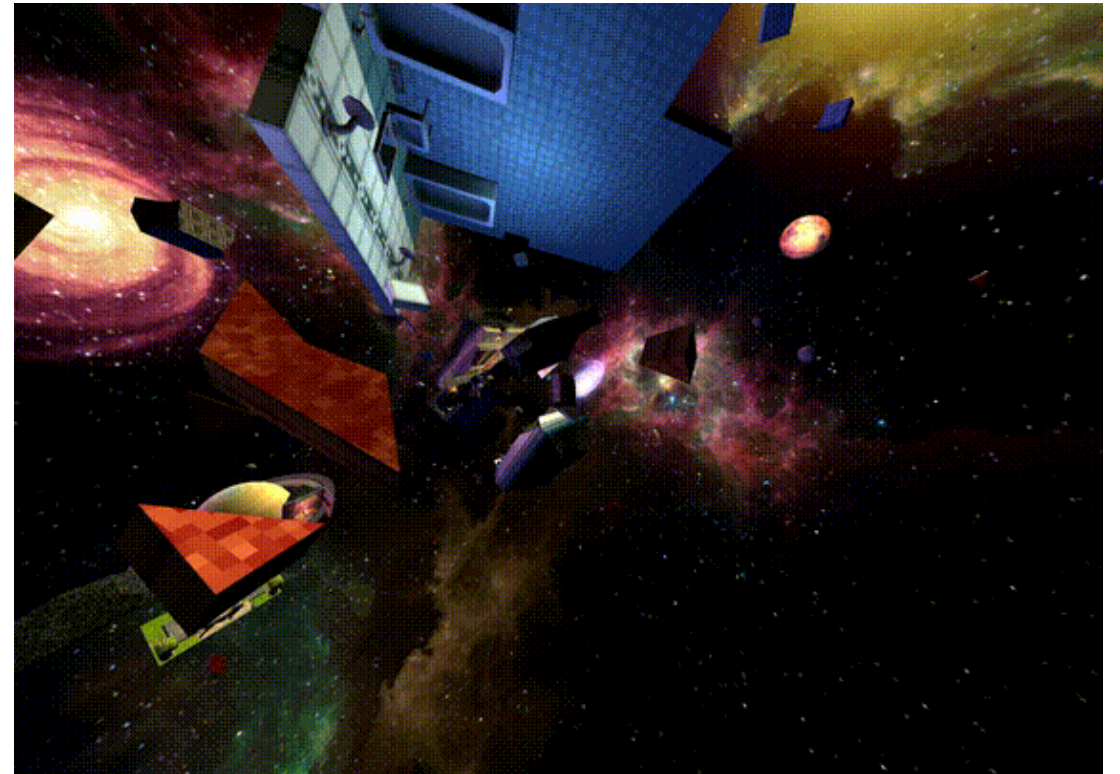

Level design

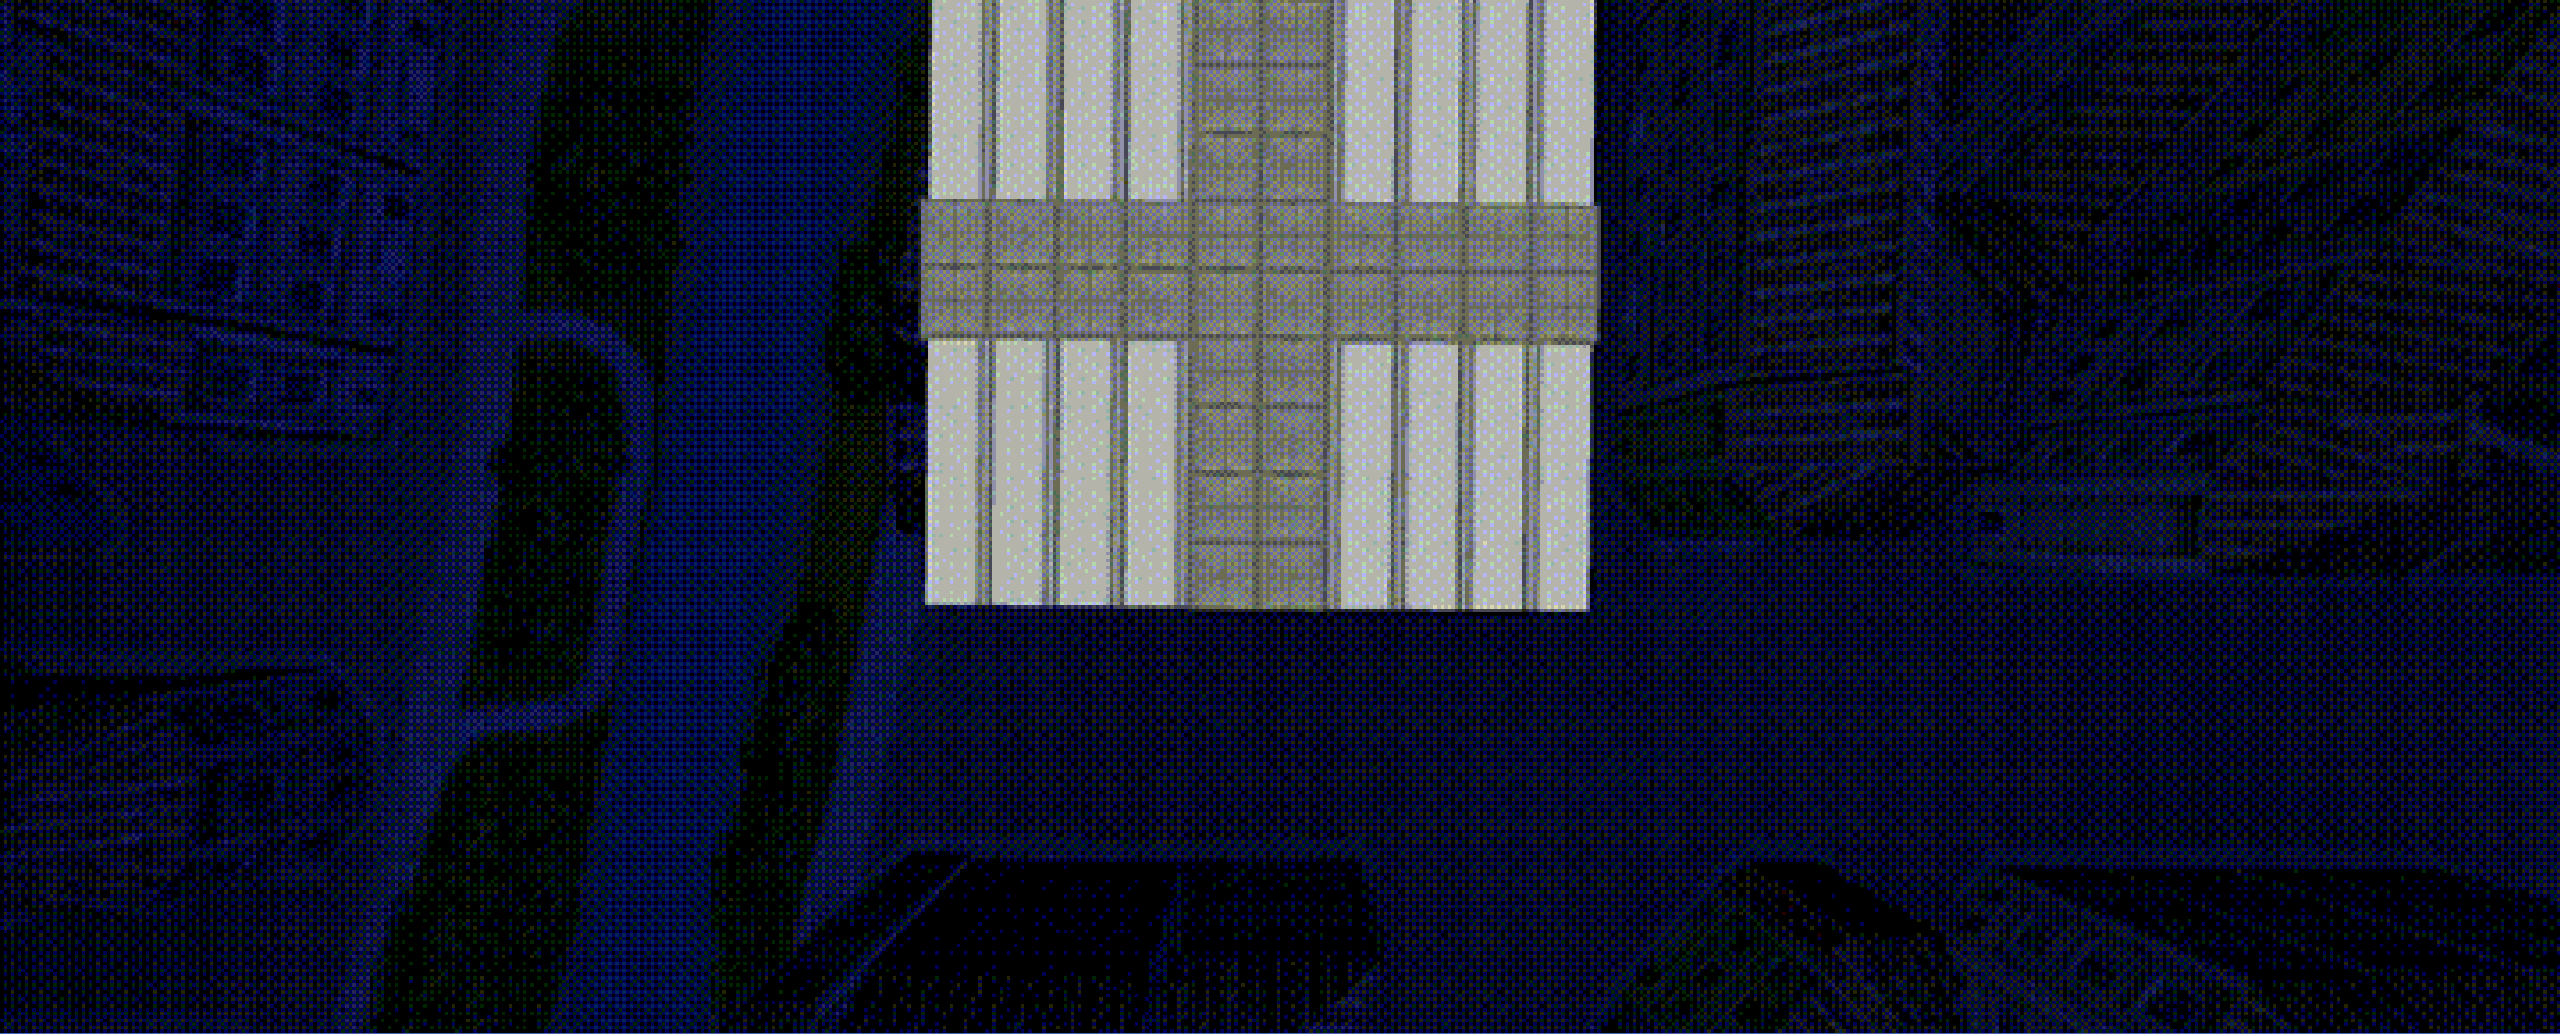

Creating maps with different orientations

Gravity Switch / Magnetic Floor

IMPORTANT FOR KEEPING ORIENTATION IN DIFFERENT SPACES AND ORIENTATIONS

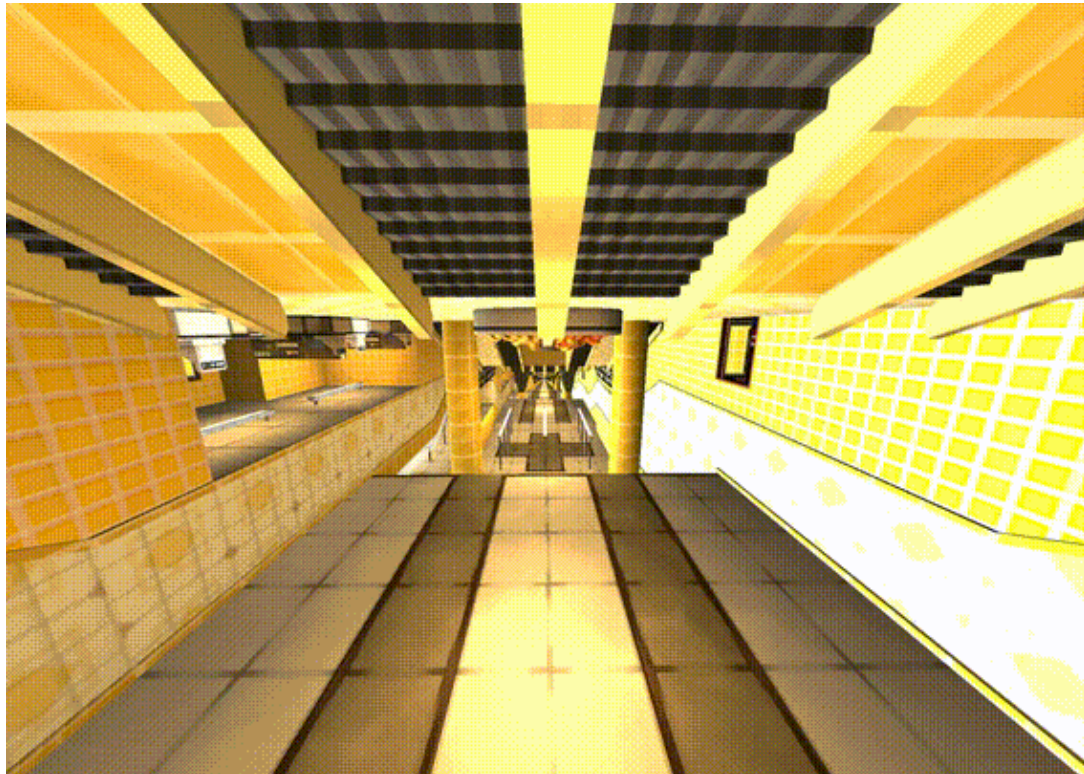

Cool examples of this

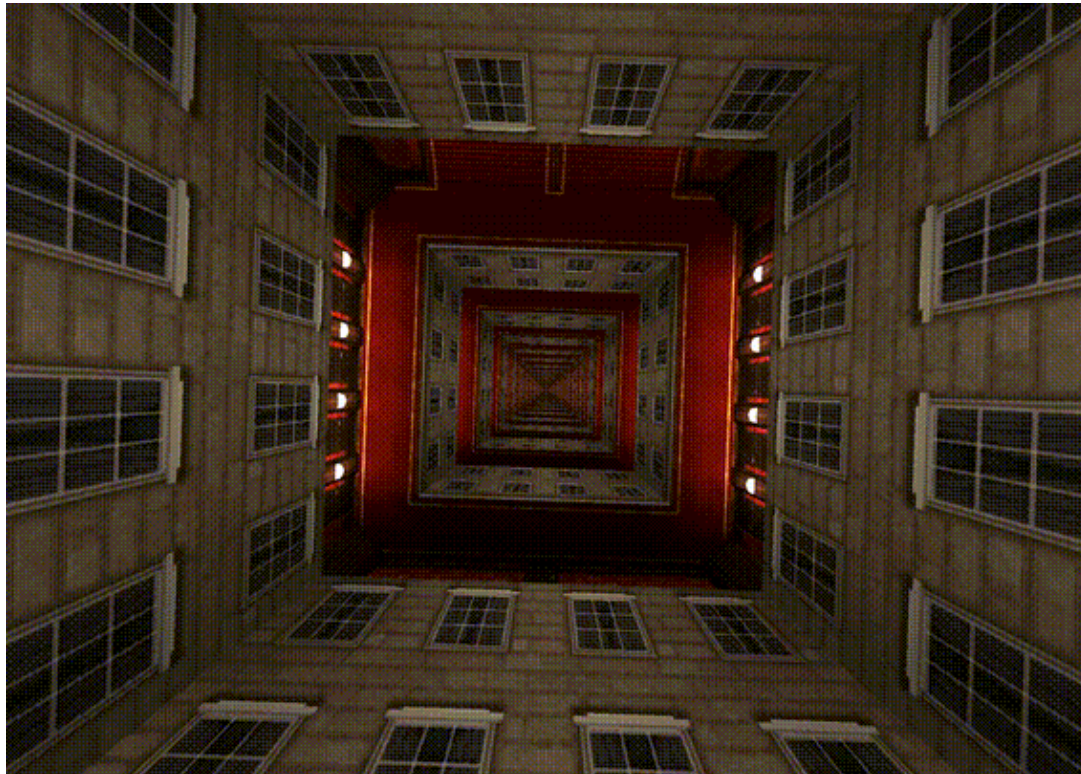

Office Scene

Mall Scene

Falling Corridor

Elevator
